

GRACE POINT CHURCHES MISSIONAL REACH

LAS VEGAS

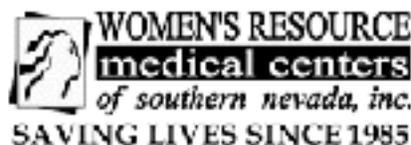

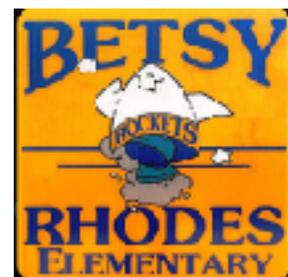

For too long, the church has been viewed as a sponge on society or disconnected from its community. At Grace Point, we believe that God has placed us in our community in order to serve and renew it. We focus a lot of our attention, energy, and resources outside of our own walls. We want the people of our community to know that Grace Point Church loves them and wants to serve them. It is not our goal to grow a church by serving our community. It is our goal to renew and improve a community by serving it. We believe you are never more like Jesus than when you are serving.

Partnerships:

We develop strategic partnerships with other organization that help us together care for the welfare of this city. Although we enjoy partnering with likeminded Christian organizations, we will also partner with entities that may not be considered “Christian” as long as their mission and focus is not anti-gospel, but share in God’s common grace for the betterment of the community.

We currently partner with the following organizations:

Grace Point Church Collective:

The Grace Point Church Collective is a church planting strategy in partnership with Acts 29 US West that consists of churches that are unified around a common mission with shared resources while allowing for community uniqueness. We agree with Peter Wagner that “planting new churches is the most effective evangelistic methodology known under heaven.” Through this collective, it is our goal that by God’s grace we will see Grace Point Churches planted that lower the lost condition of our city by 3% by 2037.

THE WEST

Church planting is the most crucial strategy for making disciples and growing the body of Christ, and we are proud to be a part of Acts 29—a diverse, global family of church-planting churches. Specifically, Acts 29 US West exists to multiply church-planting churches in the Western United States. A29 US West assesses new church planters, provides coaching & training, funds church plants and supports pastors through care and renewal. Fewer than 5-10% of the Western United States even claims to be Christian. That is why reaching this region is so crucial (Acts 1:8).¹

THE WORLD

Jesus is not limited to within the boundaries of the United States of America; He is the savior of the world (John 3:16). We desire to be a church that not only focuses on those within our “backyard”, but also have a view to the nations. We will plant churches, send missionaries, give funds and pray until the whole world knows Jesus (Philippians 2:9-11).

At this time Grace Point Churches partner with:
